Index to Volume 9

Note: The subject index is based upon the keywords allocated to each paper. The keywords are rotated in order so that each one appears once as the first index term. The complete list of permitted keywords is published in *Estuarine and Coastal Marine Science* 5 (2), i–xl.

ABD EL-MONEIM, M. A., *see* WAHBY, S. D., 615

Abundance; rock pools; Baltic Sea; Nematoda, 797

Acoustic equipment; New Zealand; Mollusca; limpets; feeding habits, 759

Adaptation; Irish Sea; Fucales; populations; reproduction; habitats, 659

—; meiobenthos; Copepoda; Arcachon Bay; coastal lagoons; diversity index; differential distribution; heterogeneity, 357

Adenosine triphosphate (ATP); marsh plants; metabolism; energy charge; dehydrogenase activity; anaerobic respiration, 79

Adhesion; zygotes; substrata; morphology; laboratory methods; England coast; Fucales, 577

AKBERALI, H. B. and TRUEMAN, E. R., pO_2 and pCO_2 changes in the mantle cavity of *Scrobicularia plana* (Bivalvia) under normal and stress conditions, 499

Aliphatic compounds; arctic waters; aromatic compounds; nearshore; pollutant dispersal; Beaufort Sea, 435

Alkalinity; seasonal variations; chemical balance; Saint Lawrence Estuary; Canada east coast, 785

ALLER, R. C., *see* COCHRAN, J. K., 739

Aluminium; assimilation; diffusion–advection models; dispersion; mixing, 91

Amino acids; enzymes; metabolism; physiology; Nova Scotia coast; heterotrophs; bacteria, 215

Anaerobic respiration; adenosine triphosphate (ATP); marsh plants; metabolism; energy charge; dehydrogenase activity, 79

Anchor stations; salt balance; water balance; eddy diffusion; eddy viscosity; Severn Estuary; estuarine circulation, 287

ANDERSON, E. L., *see* WALKER, H. A., 101

Angiosperms; Chesapeake Bay; nitrogen fixation, 813

Annual variations; diurnal variations; Arabian Gulf; Penaeidae; oceanographic factors; zooplankton; larval stages; spawning seasons, 451

Antarctic ocean; sedimentation; sediment traps; organic matter; sediment cores; pollutant persistence; coastal waters, 51

Arabian Gulf; Penaeidae; oceanographic factors; zooplankton; larval stages; spawning seasons; annual variations; diurnal variations, 451

Arcachon Bay; coastal lagoons; diversity index; differential distribution; heterogeneity; adaptation; meiobenthos; Copepoda, 357

Arctic waters; aromatic compounds; nearshore; pollutant dispersal; Beaufort Sea; aliphatic compounds, 435

Aromatic compounds; nearshore; pollutant dispersal; Beaufort Sea; aliphatic compounds; arctic waters, 435

Arsenic compounds; macroalgae; speciation; concentration, 95

Assimilation; diffusion–advection models; dispersion; mixing; aluminium, 91

ASTON, S. R. and STANNERS, D. A., The determination of estuarine sedimentation rates by $^{134}Cs/^{137}Cs$ and other artificial radionuclide profiles, 529

— —, *see* BOYDEN, C. R., 303

Australia; Victoria coast; benthos; community composition; species diversity; seasonal variations; temporal variations; bays, 477

Bacteria; coagulation; estuaries; iron; geochemical cycle; Chesapeake Bay, 41

—; amino acids; enzymes; metabolism; physiology; Nova Scotia coast; heterotrophs, 215

Baltic Sea; Nematoda; abundance; rock pools, 797

BARNES, R. S. K., Intrapopulation variation in *Hydrobia* sediment preferences, 231

— —, *see* CRAWFORD, R. M., 135

Barometric pressure; longshore bar; longshore current; wind direction; rip currents; upwelling; wave heights; Oregon coast, 683

BAYLISS-SMITH, T. P., HEALEY, R., LAILEY, R., SPENCER, T. and STODDART, D. R., Tidal flows in salt marsh creeks, 235

Bays; Australia; Victoria coast; benthos; community composition; species diversity; seasonal variations; temporal variations, 477
Beach organisms; intertidal sand habitats; community; infauna; structure; Panama Coast; seasonal variations, 543
Beaufort Sea; aliphatic compounds; arctic waters; aromatic compounds; nearshore; pollutant dispersal, 435
Behaviour; variation; Hydrobiidae; substrata; particle size; benthic ecology, 231

WARWICK, R. M. and PRICE, R., Ecological and metabolic studies on free-living nematodes from an estuarine mud flat, 257
Waste heat; diversity index; species composition; seasonal variations; temperature tolerance; New Jersey coast; diatoms; power stations nuclear, 385
Water balance; eddy diffusion; eddy viscosity; Severn Estuary; estuarine circulation; anchor stations; salt balance, 287
— exchange; Narragansett Bay; estuaries; isotopes; tracers; sediment–water interface, 643
— masses; geomorphology; North America; U.S.A. east coast; hypsography; continental shelves; depth zones, 653
Wave climate; wave hindcasting; wave prediction; England coast; English Channel; wind data; wind generated waves; wave data, 29
— data; wave climate; wave hindcasting; wave prediction; England coast; English channel; wind data; wind generated waves, 29
— generator; oscillatory waves; fluid flows; sediment transport; current meters, 801
— heights; Oregon coast; barometric pressure; longshore bar; longshore current; wind direction; rip currents; upwelling, 683
— hindcasting; wave prediction; England coast; English Channel; wind data; wind generated waves; wave data; wave climate, 29
— prediction; England coast; English Channel; wind data; wind generated waves; wave data; wave climate; wave hindcasting, 29
